Thank you for sharing and please send along my thanks to Ex. 6 Personal Privacy (PP) as well. I've had the pleasure to work on/participate in a few projects with Ex. 6 Personal Privacy (PP) and Ex. 6 Personal Privacy (PP) has always been thoughtful and helpful. I agree that many of Ex. 6 Personal Privacy (PP)'s key points on process, consulting with Tech teams and communicating decision points are aligned with the general direction we have discussed and intend to implement in Ex. 6 Personal Privacy (PP). We will be sharing our process and SOPs more widely as soon as possible.

Regards,

Ex. 6 Personal Privacy (PP) is part of a general conversation **Ex. 6 Personal Privacy (PP)** and I had about the Scientific Integrity Policy. When I asked **Ex. 6 Personal Privacy (PP)** authorized me to share it with you.

As you'll see, **Ex. 6 Personal Privacy (PP)** email has some suggestions that seem to align with your own ideas about process, Tech Teams, quality assurance, and communication. I know you are well underway in establishing a culture in the New Chemicals Division that encourages discussion, assures quality and promotes clarity and communication. I hope **Ex. 6 Personal Privacy (PP)** suggestions help in that cause.

Let me know how I can support you in doing this important work.

Hello **Ex. 6 Personal Privacy (PP)**

Ask: I would like to ask that an SOP or other process be developed for revising our science policies and practices in the new chemicals program. This will bring clarity regarding which science policies and risk assessment practices are current and which are outdated.
